Four Way Test of the things we think, say or do:

Is it the **TRUTH**?

Is it **FAIR** to all concerned?

Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?

Will it be **BENEFICIAL** to all concerned?

George Browning has given thousands of talks but it was the first time, on Thursday evening, that he had spoken about his hobby of beekeeping. Bees are essential to agriculture for the fertilization of fruit crops. The European bee was introduced to Australia to the detriment of the non-stinging native bee. It was interesting to hear how the swarm functions. The Queen bee is the only fertile female. The male bees, the drones, only function is to eat and fertilize the Queen. He has a hard life! Meanwhile the sterile females are doing all the work flying as far as three kilometres to collect pollen. The poor Queen bee lasts about three years before she is squashed and a younger Queen takes her place. George orders a new Queen online and she comes in the Post with a few friends, a true mail-order bride! George has five hives and extracts about fifty litres of honey each year, which he gives away to friends and family. We are all his friends after tasting some! A single bee is quite useless but as part of a swarm it can achieve wonders perhaps a little like Rotary!

... Each of us came to Rotary because we had a longing – to have an impact, to make a difference, to be part of something larger than ourselves. That desire, that vision for a better world and our role in building it, is what drives us in Rotary. It's what made us become members, it's what motivates us to serve, and it's what led me to choose our theme for this Rotary year:

Be the Inspiration.

Rotary is an international membership organisation made up of people who share a passion and commitment to enhancing communities and improving lives across the globe.
